Section 4

The Related Party Issue

*A related party relationship **could have an effect** on SOFP and operating results:*

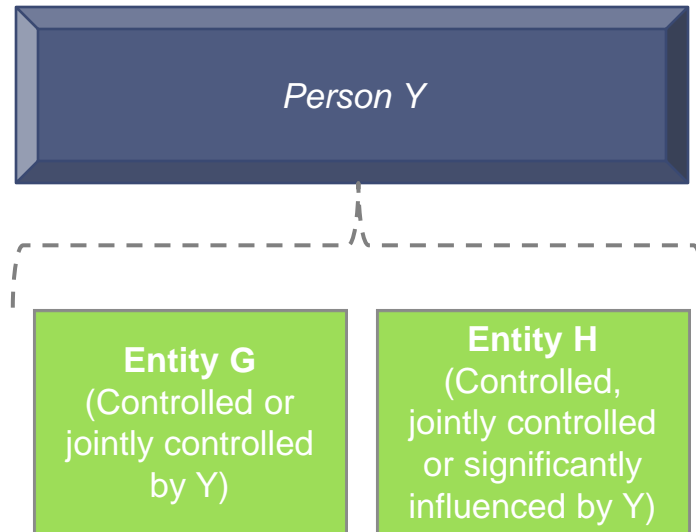

Entering into transactions
which unrelated parties
would not

Transactions not at the same
amounts as for unrelated
parties

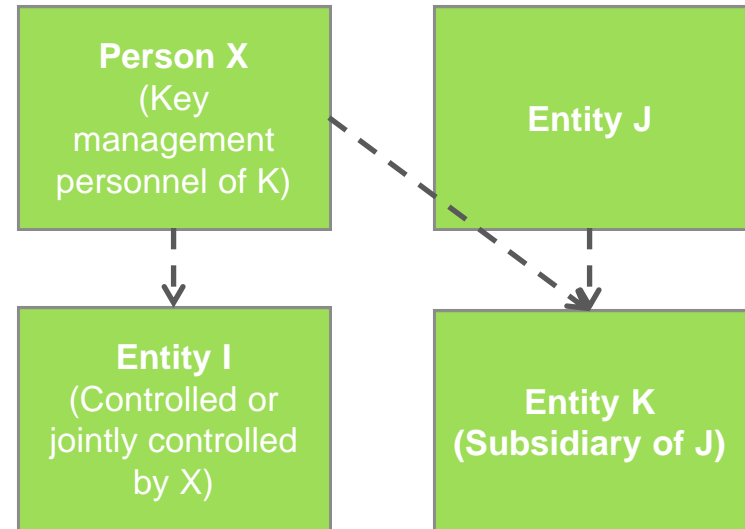

Even if RP transactions do
not occur, mere existence
of the relationship may affect
transactions with other parties

Pricing Methods

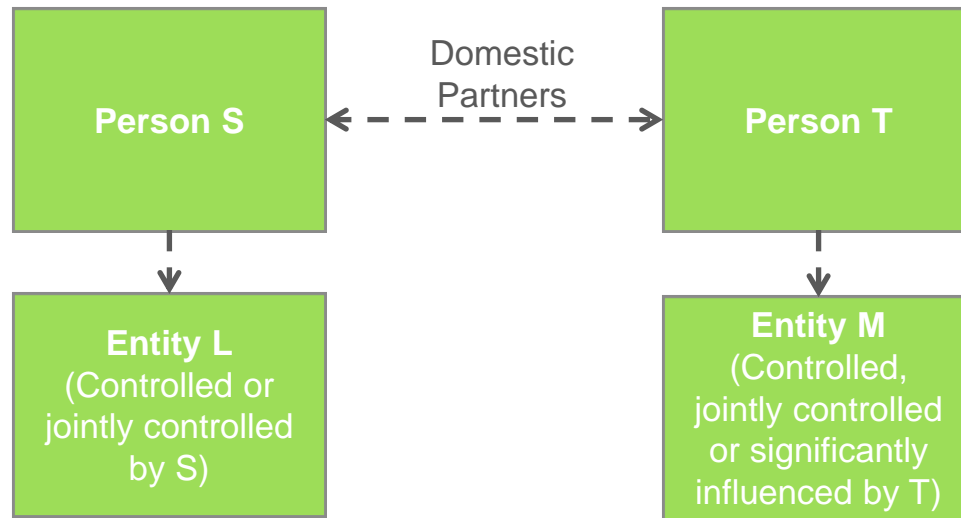

- ✓ Comparable uncontrolled prices
- ✓ Resale price reduced by a margin to arrive at a transfer price
- ✓ Cost plus method
- ✓ No price (free provision of management services and interest free credit)

- ✓ Y controls or has joint control of entity G, and has control, joint control of or significant influence over entity H
- ✓ H is a related party for G's financial statements. G is a related party for H's financial statements

- ✓ For I's financial statements, K is a related party because X controls I and is a member of the key management personnel of K
- ✓ For the same reasons I is a related party for the financial statements of K

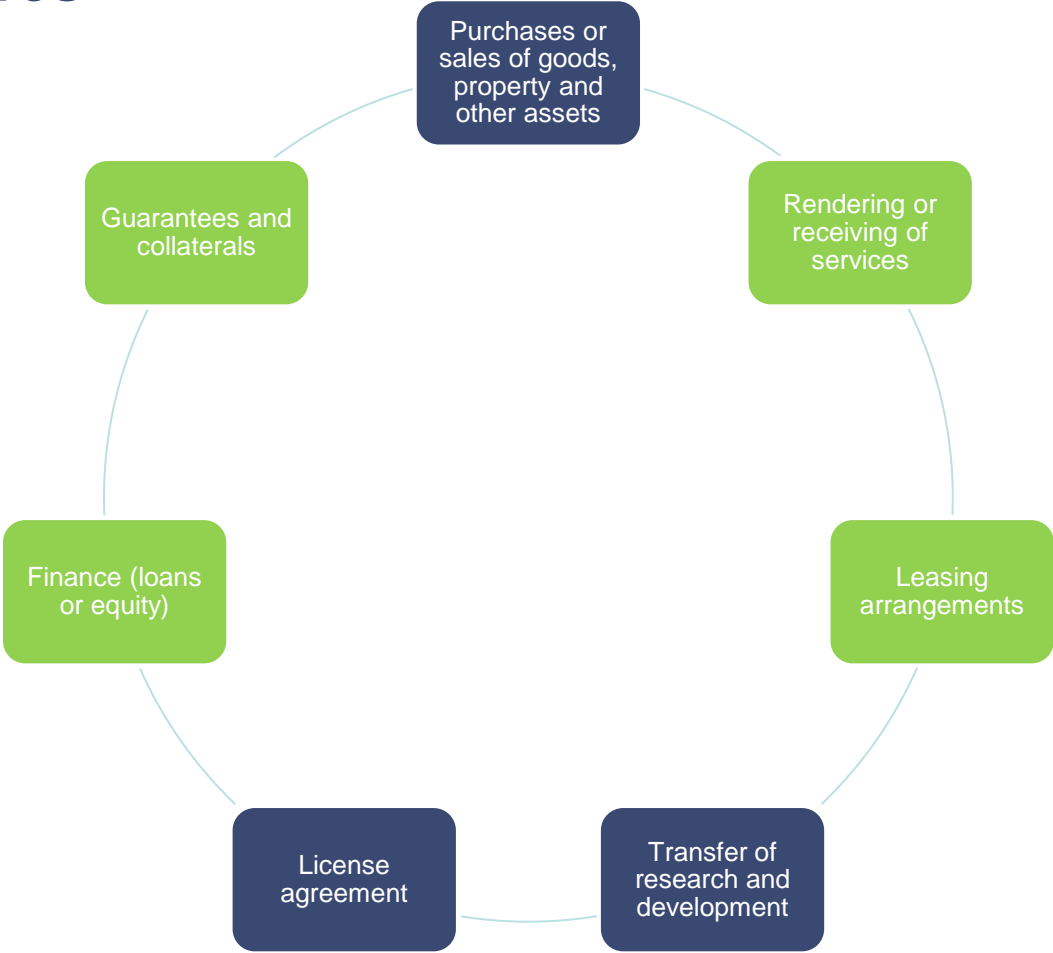

- ✓ Both entities L and M are related parties
- ✓ If S and T only had significant influence over L and M respectively, the two entities would not be related parties
